STUDYPOINT

ICSE-IGCSE-CBSE

— IGNITING A BRIGHTER FUTURE —

One child and one
Teacher can change the
world.

Director's *Message*

We want our students to be leaders in terms of thought, ideology, and performance. My faculty and I work hard to ensure that our students succeed and excel academically.

As an educator, I understand how critical it is to provide quality knowledge and career-based training in today's cutthroat competitive environment. As a result, StudyPoint is focused on providing result-oriented inputs that provide students with best-in-class training to help them excel in the future aspect of their lives.

To meet the needs of students, we provide exclusive study materials and a unique teaching methodology that incorporates technology. We expose students to a highly competitive environment, strengthen their conceptual foundation, and clear their doubts so thoroughly that they feel confident when attending exams.

PROF. BHAVIN RAVASIA

Ace Mathematician with B.E. in Electronics,
MS in Financial Mathematics from the
University of York, UK

Our Vision

Our vision is to provide a positive experience and opportunities for every student to improve their skills and build self-esteem. To help students build the foundation of their future success by helping them to become independent learners. To provide a positive learning environment.

Our Mission

To build StudyPoint into a high-quality education provider by offering knowledge-defining competency assessment teaching and training to students of ICSE, CBSE & IGCSE boards.

"Your mentors in life are important, so choose them wisely."

Our Goal 90+ Programme

Student-centric Approach

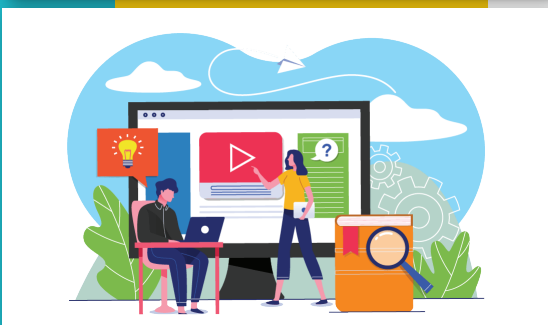

Small Batch Size

Personalized Attention Towards Each Child

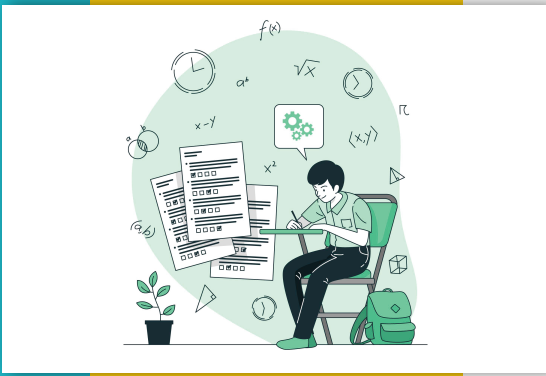

Expert & Experienced Faculty

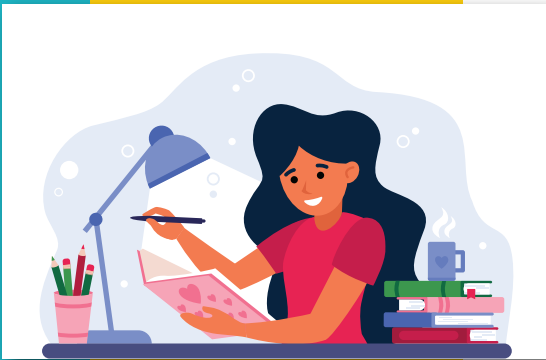

Doubt Clearing Sessions

Daily & Weekly Class Assessment

Test series

Self-made Notes & Study Material

Staying In Touch With Parents For Child's Academic Updates & Progress

On-time Syllabus Completion

The true purpose of education is to inspire someone's mind, not just to fill their head.
